LEVELLING SYSTEM

LEVELLING SYSTEM

LEVELLING SYSTEM is designed to eliminate lippage and uneven tile edges, ensuring a smooth, flat surface. It holds tiles securely in place during installation and significantly speeds up the levelling process. Ideal for both professionals and DIY enthusiasts, this system delivers a clean, accurate, and high-quality finish every time.

WHAT'S INCLUDED?

- **CLIPS** – 2mm, 3mm, 4mm, sizes | 100 pcs/packet
- **WEDGES** – Reusable | 100 pcs/packet
- **PLIER** – For applying even pressure with precision

ADVANTAGES

- **MAINTAINS CONSISTENT GAPS:** Ensures uniform joint spacing between tiles.
- **PREVENTS TILE SHIFTING:** Minimizes movement during the setting process.
- **IMPROVES ALIGNMENT:** Eliminates lippage for a flush tile surface.
- **SPEEDS UP INSTALLATION:** Reduces overall installation time and rework.
- **ENHANCES FINAL APPEARANCE:** Achieves a sleek, professional-grade finish.

WHY CHOOSE LEVELLING SYSTEM?

BENEFIT	DESCRIPTION
Uniform Gaps	Ensures even tile spacing across the floor or wall surface
No Tile Movement	Holds tiles in place during setting
Flawless Alignment	Eliminates lippage between tiles for a level finish
Fast & Easy Installation	Reduces effort, time, and the need for rework
Superior Finish	Achieves a professional, aesthetic look

WHAT HAPPENS WHEN YOU USE IT?

- Smooth, even tile surfaces
- Faster project completion
- Accurate tile alignment
- Fewer tile breakages while curing
- Premium and durable results

WHAT HAPPENS WITHOUT IT?

- Visible lippage and unevenness
- Slower, more labour-intensive work
- Crooked and irregular joints
- Higher chance of cracking
- Poor final appearance

IDEAL FOR:

- Tile professionals
- DIY installers
- Wall and floor tile projects
